A rather large amount of teens have gathered at the city park, I called Phoenix Police and they already had a call in for it. Once the police arrived there was very little traffic in the area

11/10/16 **D Emerson** (2000-400)

Received call from 30X E Forest Hills, resident stated there was a suspicious vehicle parked in front of 24X E Forest Hills. I arrived in the area and found a red Jeep Liberty AZ PI#BFN3781 parked outside of 24X and the vehicle was vacant, I took the plate down but it appeared they were just visiting. About 20 mins later same resident called back and asked for plate, she stated that the two females were in front of an address off of Deepdale on someone's front porch so she called 911 and then the two girls ran back to the vehicle and drove off with headlights off. I later spoke with 24X Forest Hills and it was apparently two teenagers that for an unknown reason were on a resident porch (the resident has clear video of them). The resident pounded on her door and the two girls ran off. Phoenix Police responded but it didn't appear they checked the address to the plate, resident said while police present the vehicle passed back by and the officer didn't stop them. Keep an eye out for vehicle.

I had several calls of teenagers speeding, doing donuts and squealing wheels. I would chase teenagers out of the Mormon parking lot, then Sunset North, then Country Club they then went to the city park however would drive back to the Mormon Church do donuts and return to the park. I went ahead and called Phoenix Police since there were just too many for me to keep track of. Gold Ford Focus BXE1237, VW Jetta (dark) ATB7717, another gold vehicle BSW0629.

2330 I had several reports of large groups of teenagers on the golf course. I advised maintenance from the country club that he needed to call the police to deal with them on property. I ran into a group of 6 of the wash at the entrance

of Valle de Luna and instead of listening to me they decided to run and hide. I advised them that I had their license plates and that if they did not leave I would call the police. They still did not listen. I called Phoenix Police while waiting two females came out and got in there vehicle the one in the White Mazda CX-5 AZ pl#AGT3040 I recognized her from last week in the same area with a teenage boy and one of them threw and broke a glass Corona beer bottle on the ground. She advised she was going home I was not able to make contact with the male. The second female in a Honda Accord AZ pl# AYA2612 and the third vehicle of 4 males Gold Nissan Maxima AZ pl# BTJ2281. I yelled at the two girls that they were trespassing and they need to learn to obey because now I have the police coming for a bunch of kids fooling around. They apologized and left. The males showed up much later in the gold Maxima and were detained by the police. Unknown if these were any of the teenagers throwing rocks or being loud but they were lectured by the police and released.

At 2150 was waved down by David and Roger (maintenance workers from country club) telling me they found two people sitting on tennis court drinking. I pulled around and confronted the suspects. Alex Sevenshi and Jake Chaney said they're residents, but when asked for address they gave no community addresses. Told them they were not allowed to drink at tennis courts and since they were nonresidents of the community that they were trespassing and needed to leave immediately before police were called. They left quickly.
